## SCHEDULE FOR PAYMENT ON THE SEED POSTGRADUATE COURSE 2020

### FULL COST OF EACH COURSE BEFORE DISCOUNT:

1. MARCH 13-15 – JOY DIVISIONS = £195
2. JUNE 18- 21 – TENSEGRITY, FASCIA & DEVELOPMENTAL MERIDIANS - £245
3. SEPT 24-27 - PHYSICAL DEMOCRACY - £245
4. JAN 7 -12 2021 – INNER QIGONG RETREAT - £245

Discount of 10% if you take the first three. Also you will have free access to the SEED Online Learning programme with a huge library of videos, lessons and information.

If you have completed a full programme with us before, you will receive an extra 10% discount.

If you pay from a Eurozone country, the best way to pay is probably through Transferwise ([www.transferwise.com](http://www.transferwise.com)). You will need to pay a deposit by transfer (£75 for a single workshop, £200 for three or more modules). This will be taken off the payment for the final workshop you take.

If you are taking the whole course, we may accept payment for each workshop in euros at the (real) exchange rate current at the time. This is the exchange rate that we actually receive when we change the cash at the bank, not the official rate which is usually different. We will tell you how much to bring each time because the rate changes all the time.

As an example, if you have booked for all four workshops the schedule would have a 10% discount so your payment schedule would be:

1. Pay £200 deposit by transfer now.
2. £175.50 for March workshop or Euro cash equivalent
3. £220.50 for June workshop or Euro cash equivalent
4. £220.50 for September workshop or Euro cash equivalent
5. **£20.50** for January workshop or Euro cash equivalent (**deposit has been deducted**)

## How to Pay:

To pay by bank transfer:

**Account Name:** SEED

**Bank:** Natwest

**Branch:** Bath Stuckeys, 39 Milsom St, BA1 1DS

**Sort Code:** 60-02-05

**Account Number:** 59182156

Also, for paying abroad now, you need the following two codes

**IBAN:** GB50NWBK 600205 59182156

**IBAN BIC:** NWBKGB2L

If you are paying from another country you could consider using Transferwise ([www.transferwise.com](http://www.transferwise.com)) because bank to bank transfers are very expensive and the exchange rate they give is distorted.

The transferwise process is easy and the exchange rate they give is much better than the main banks AND their fee for the transfer is low and fair. You can use an app on your smartphone to do the transfers.
